

Remarks

The application has been amended to insert United States Patent and Trademark Office recommended headings and subheadings, to flesh out the summary of the invention to include a brief description of the subject matter, and to correct minor errors of English and numerical usage. An Abstract has been added as a separate page hereto. The claims have been rewritten in U.S. format, eliminating multiple dependencies. No new matter has been added.

It is noted that the claims have been indicated by the PCT search authority to fully meet the PCT requirements for unity of invention, novelty, inventive step, and industrial utility. Therefore, early favorable consideration is respectfully requested.

Respectfully submitted,

ANDREAS BACHER ET AL.
